Wixom City Council
49045 Pontiac Trail
Wixom, MI 48393

Dear Honorable Mayor Richard Ziegler:

With a deep sense of concern for the health of the residents of Hamburg Township we, the Hamburg Township Board of Trustees respectfully request that the City of Wixom immediately implement and enforce the provisions of your September 19, 2018 Industrial Pretreatment Program with TRIBAR Manufacturing.

Our preference is an immediate and total elimination of the discharge of any and all PFOS emanating from your Waste Water Treatment Plant that discharges into Norton Creek, a tributary of the Huron River. Specifically, "close the valve today!" We realize the limitations you face as you coordinate your municipal enforcement with the enforcement of state laws by the Michigan Department of Environmental Quality.

The Huron River is an unequalled environmental and recreational jewel. Hamburg Township has between eight and ten thousand residents living on, or along, the Huron River and its associated chain of lakes. The range of emotions expressed by our residents to us, the elected officials of Hamburg Township, range from abject disbelief and anger to fear for their health and the health of their families.

Please spare no enforcement options in your efforts to stop the environmental ruin of the Huron River.

In closing, we pledge to collaborate with the City of Wixom, the Huron River Watershed Council, and all partners along the Huron River, as we attempt to mitigate this environmental degradation of the Huron River that by all indications will confront us for decades to come.

Respectfully,

The Hamburg Township Board of Trustees
