Livingston County Emergency Management

Telephone 517.546.6220
Fax 517.546.6788

Emergency Management Coordinator: Therese Cremonte

What is the County doing for you?

- The Livingston County Emergency Operations Center (EOC) has shifted to *full activation status*.
- What does this mean? Currently, there are representatives from each emergency service department in the county as well as the Emergency Manager, Health Department, local hospitals, transportation, and Central Dispatch. EOC staff meet daily to ensure needed resources and plans are in place to protect the safety of the public and responders throughout the COVID-19 response.
- Typically, individuals involved in the EOC work together physically at an established location. Due to the nature of COVID-19 and social distancing orders, EOC staff are working together virtually.

25,635
Total COVID-19 Deaths
1,602
Daily Confirmed Cases
997
Daily COVID-19 Deaths
115

SEE CUMULATIVE DATA

Why is this important?

- The EOC serves as a coordination hub for an incident response. Staff do things like gather critical information, track trends, request and coordinate delivery of supplies, and report statistics to local organizations.
- Through the EOC, the county can request needed resources from the State of Michigan. If the resources are not available from the State, the EOC will find other means to secure the needed items.
- Informing the public is another function of the EOC. It is our mission to provide the residents of Livingston County with accurate, coordinated, and timely information.

How do I get information?

- Information is sent to local media outlets and posted daily on social media outlets managed by the following disciplines: Local Fire Department, Local Police Department, Livingston County Health Department, Livingston County Emergency Management and Livingston County Central Dispatch. Additional information can be found on the Livingston County Health Department website at www.LCHD.org.
