

FOR IMMEDIATE RELEASE

May 8, 2020

SANITIZERS AVAILABLE FOR PERSONAL & COMMERCIAL

HOWELL, MI -Nyatex Chemical Company is a family owned Michigan small business that has been manufacturing adhesives, chemicals and coatings for over 40 years. While our primary markets have been adhesives for automotive and personal care, at the start of the COVID-19 crisis we found ourselves with the experience and resources to manufacture a variety of essential products including sanitizers for hands, surfaces and equipment.

All sanitizing product blends are derived from formulation guidelines set forth by the World Health Organization (WHO): <https://www.ncbi.nlm.nih.gov/books/NBK144054/>

Current sales structure is designed to supply any/all sanitizing products at an affordable cost to local individuals and businesses with discounted rates for hospitals, first responders and other essential services companies. Please inquire with our sales staff about the discounted rates.

- Pails of HAND SANITIZER or SURFACE SANITIZER for \$150.00/each.
- Packaging is white, 5 gallon, plastic pail with retractable (rieke) spout.
- Pick-ups are generally between 9am -3pm, M-F. Call ahead required.
- Shipping via UPS (Ground service only) for less than 5 pails
- Shipping 5 of more pails requires common carrier freight service

Please note that our hand sanitizer is not gel type, it is slightly more viscous than water and is able to be used in pump spray type bottles.

Orders can be placed by calling our office (517-546-4046) or emailing orders@nyatex.com.
