

Michigan Mutual Aid Box Alarm System  
Michigan Task Force 1

November 29, 2023

Chief Brian Ball  
President, Michigan MI-MABAS

RE: Hamburg Township Drone Validation

President Ball,

Hamburg Township Department of Public Safety is a member of MABAS Division 3101. They submitted an application to become a Validated Drone Company in the September of 2023.

A thorough review of the Administrative portion of the validation process indicated that they have a well developed system that meets or exceeds the objectives put forward by MI-MABAS, and they were approved to move forward with the Operational Readiness portion of the validation process.

The Operational Readiness Validation took place in Hamburg Township on November 28, 2023. We used the newly developed process to determine their capability as a MABAS Drone Company and they clearly surpassed the expectations.

I am happy to report that Hamburg Township Department of Public Safety has been added to the MABAS resource list as a Validated Drone Company.

Please let me know if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Chris Martin".

Chris Martin,  
TFL/Special Operations Chief, MITF1/MI-MABAS
